

Richmond Department of Public Utilities Presents:

WASTEWATER

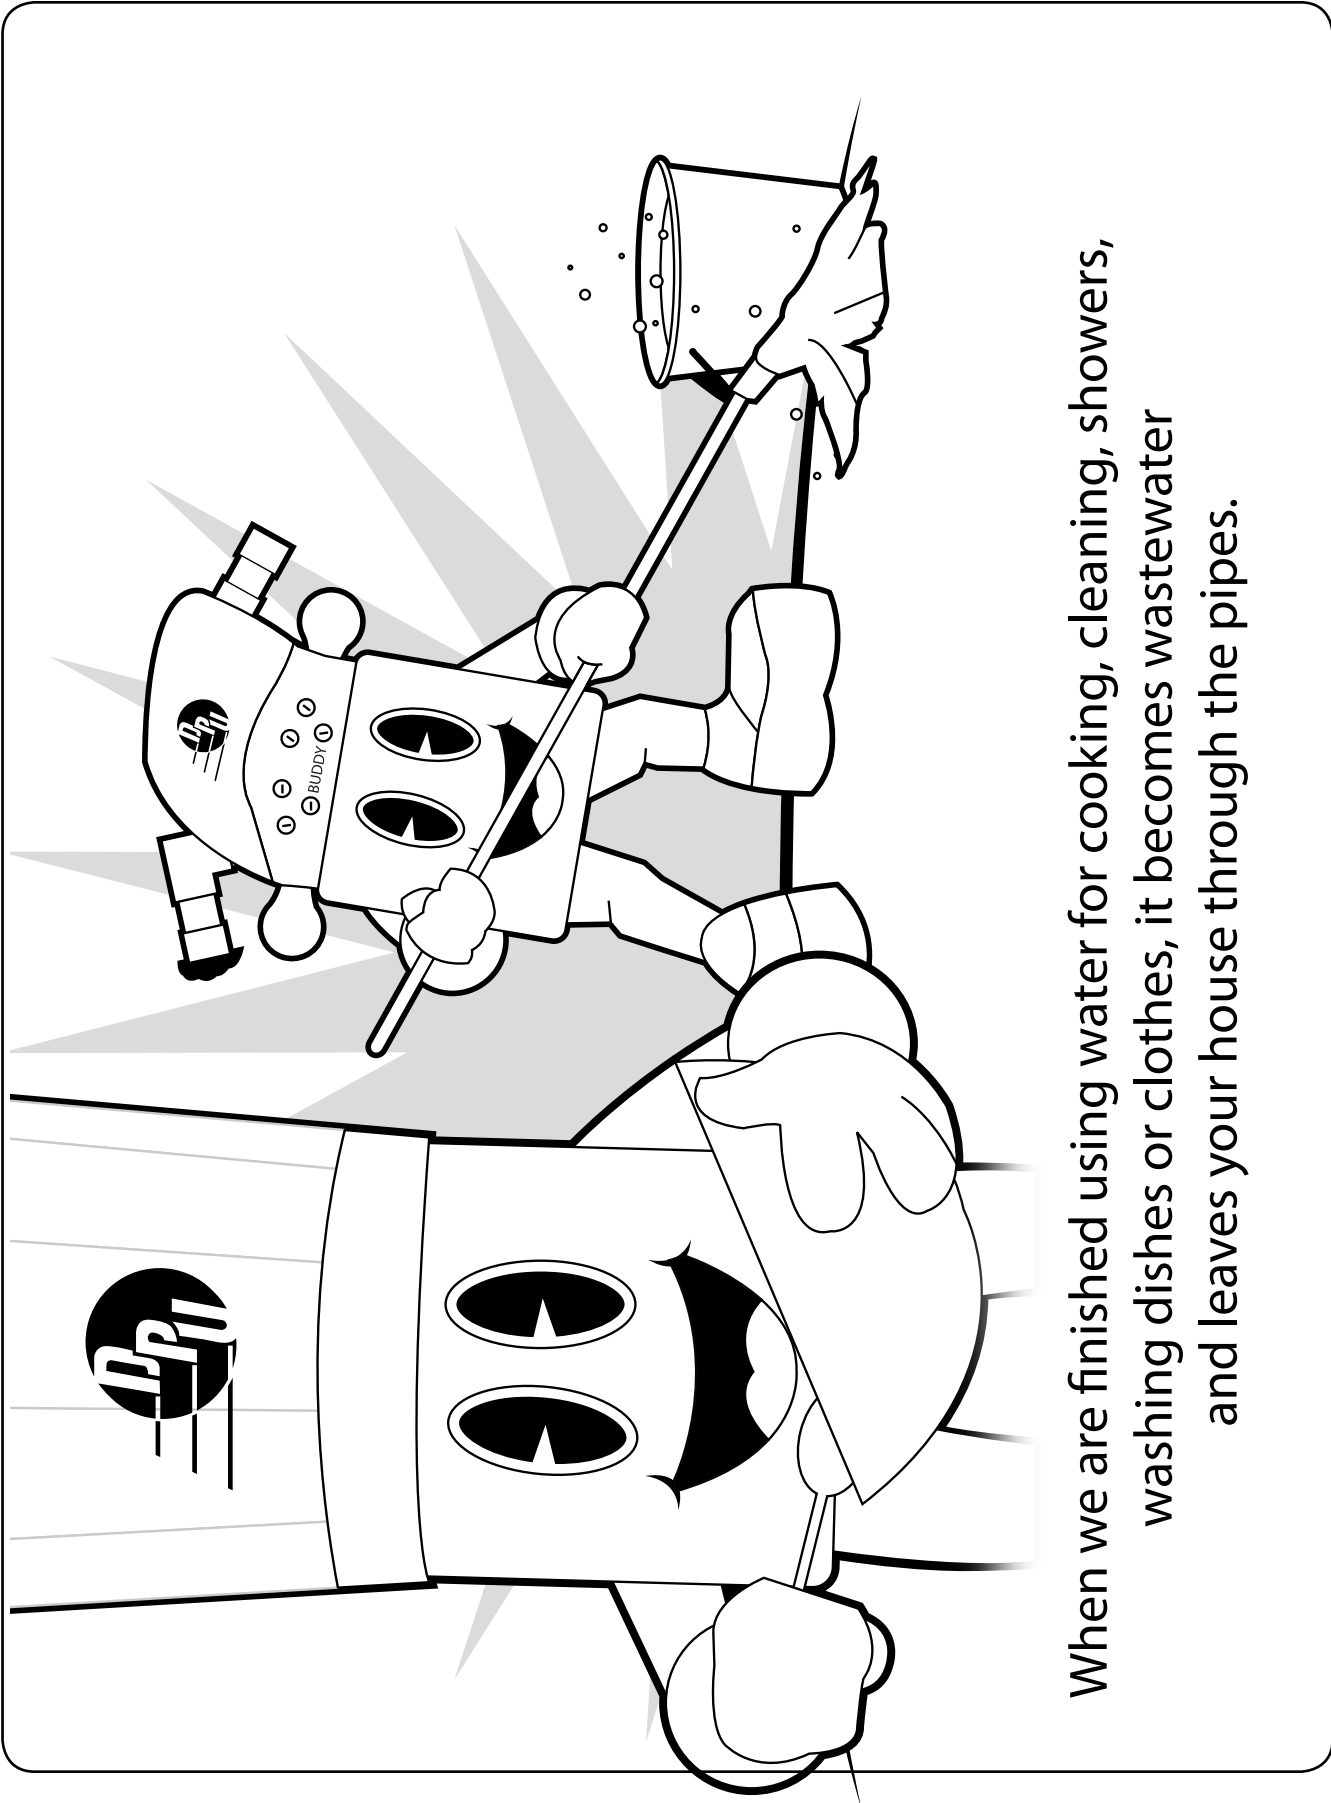

Coloring Book & Activity Book

Hello, my name is Utility Buddy.
I work for the City of Richmond
Department of Public Utilities.
I am here today to tell you
about wastewater.

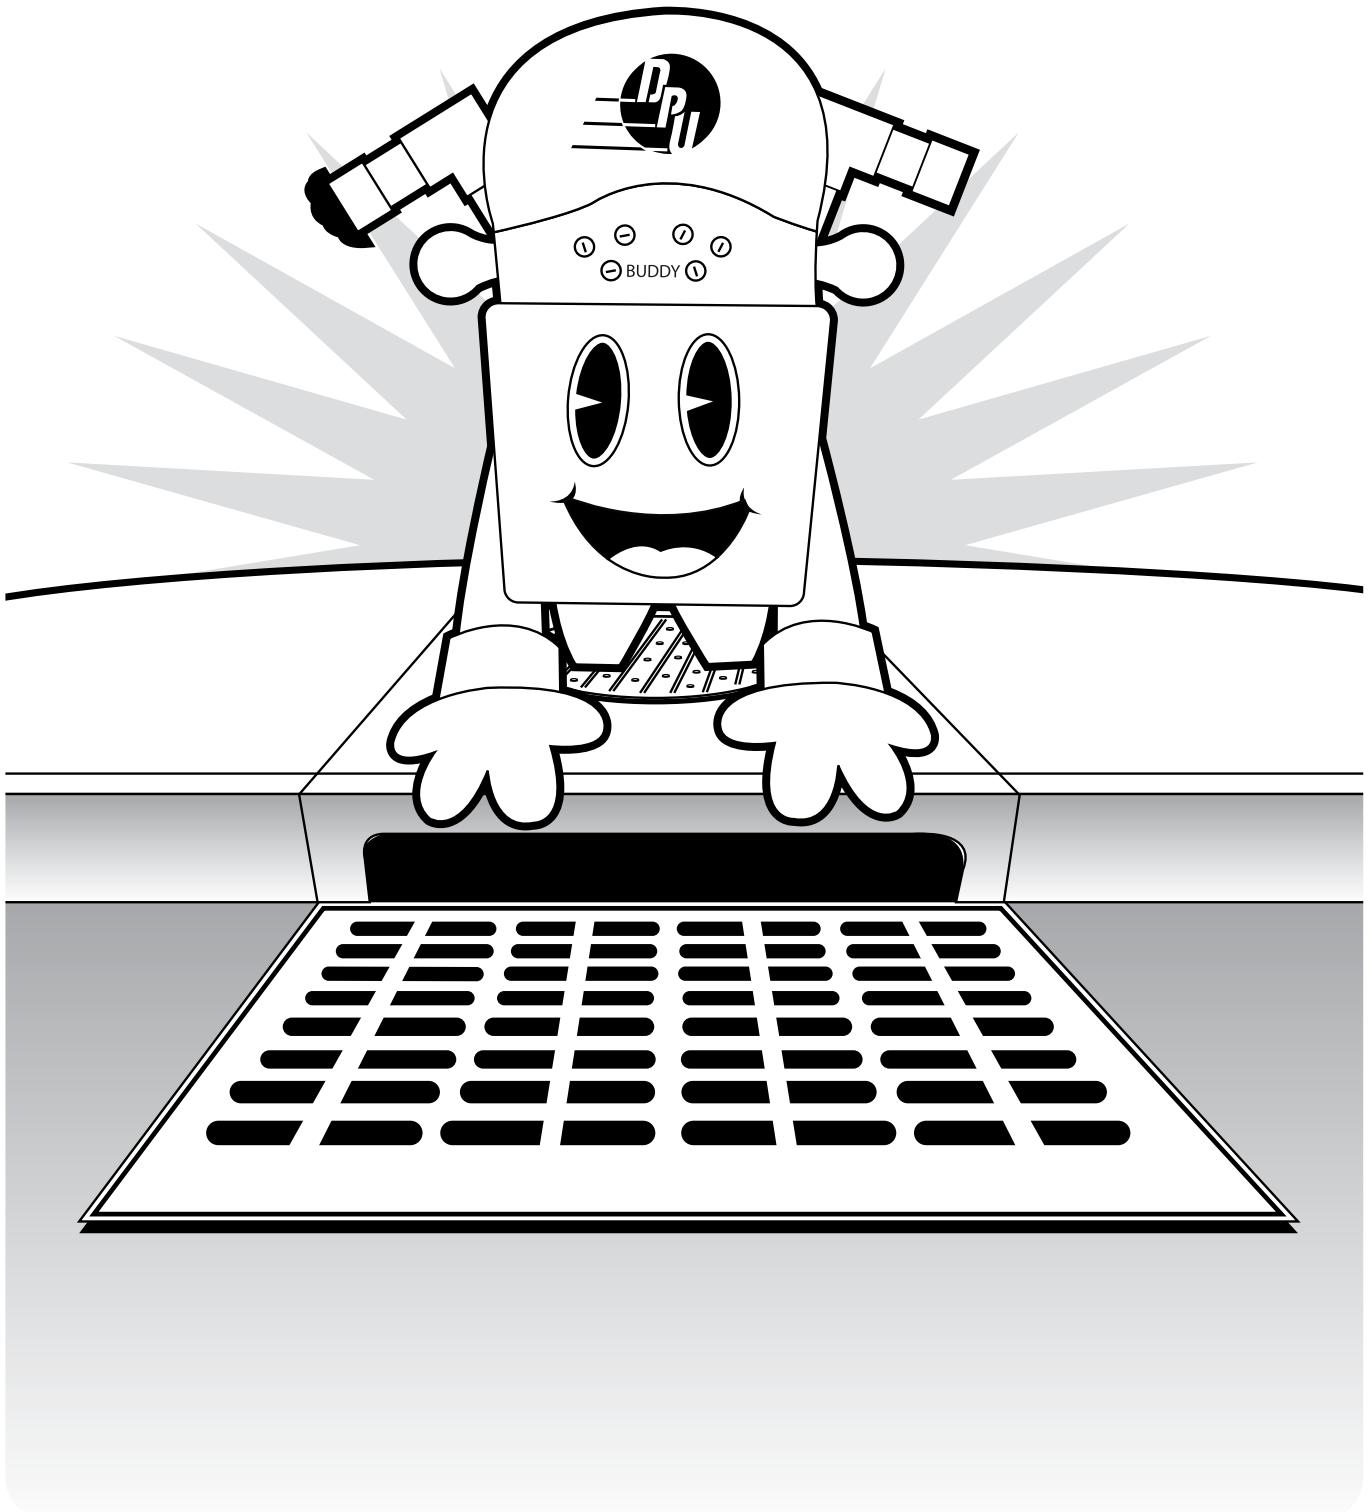

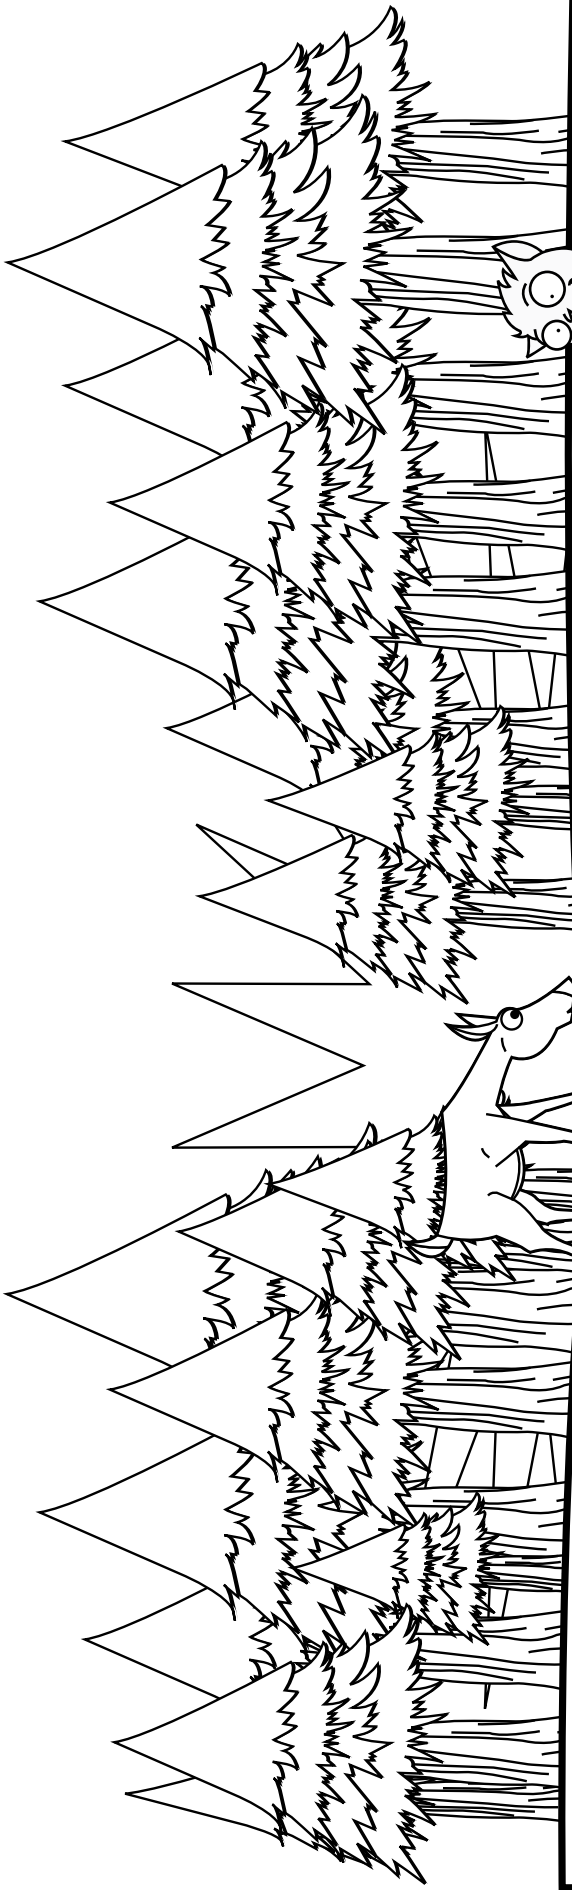

The Wastewater Utility is just one of the utilities that the Department of Public Utilities operates. Here are some of the others.

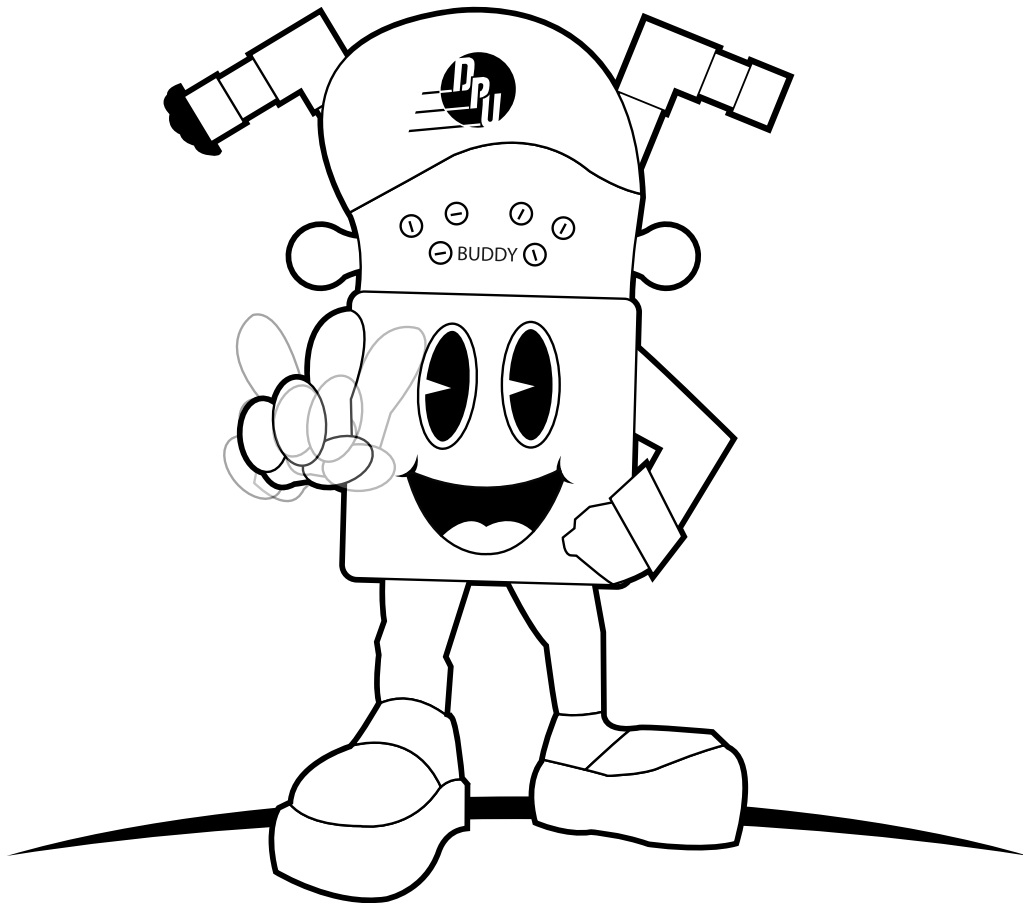

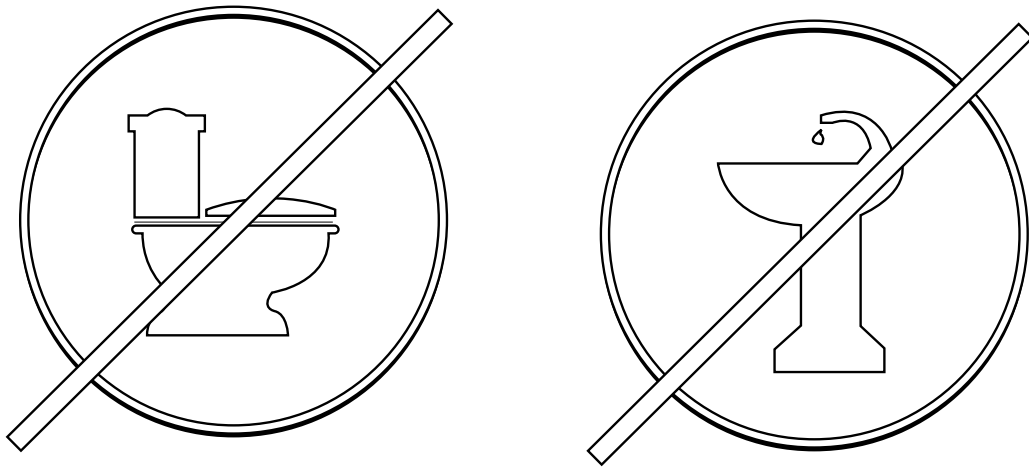

When we are finished using water for cooking, cleaning, showers, washing dishes or clothes, it becomes wastewater and leaves your house through the pipes.

Wastewater goes down into sewer pipes under the ground to a treatment plant where it is cleaned and made fresh so it can go back into the James River.

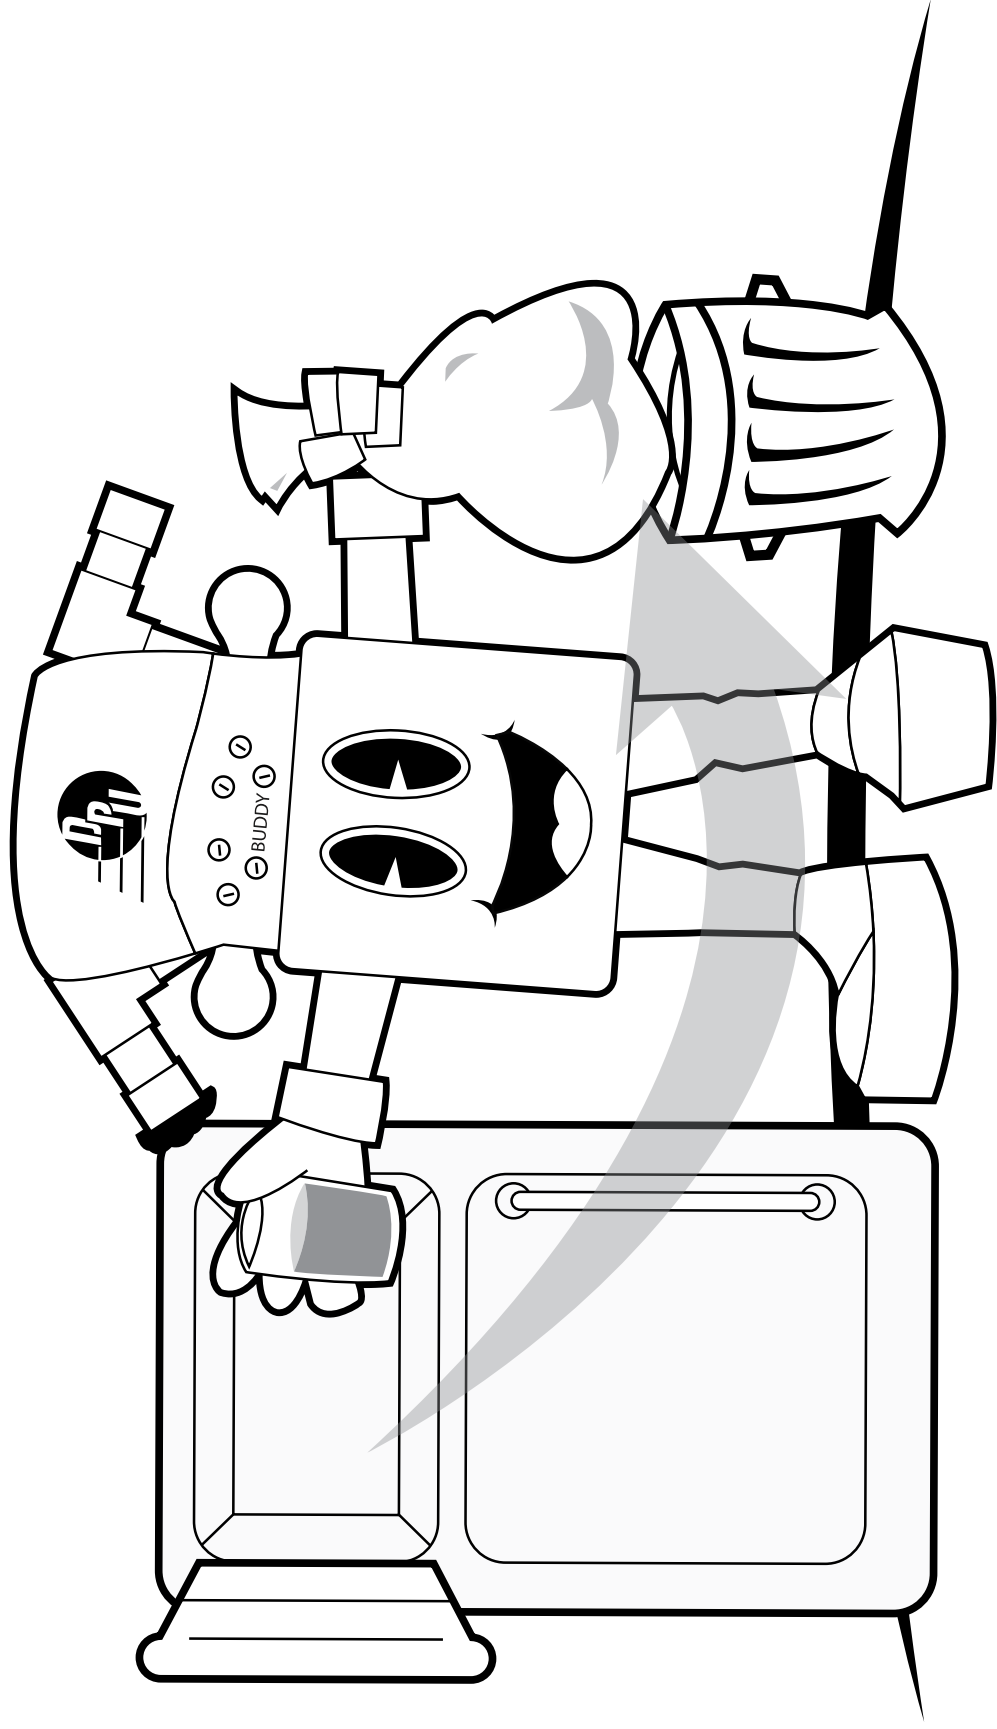

Fresh clean water is important for the James
River because fish and animals like clean, fresh
water...just like you and me.

We can help protect our environment by NEVER putting grease or oil down the drain.

It makes the sewer system greasy, grimy, stinky and dirty. Eeeewwww. I made up a rhyme to help you remember: "NO FOGS equals NO CLOGS."

FOGS stands for Fats, Oils and Grease

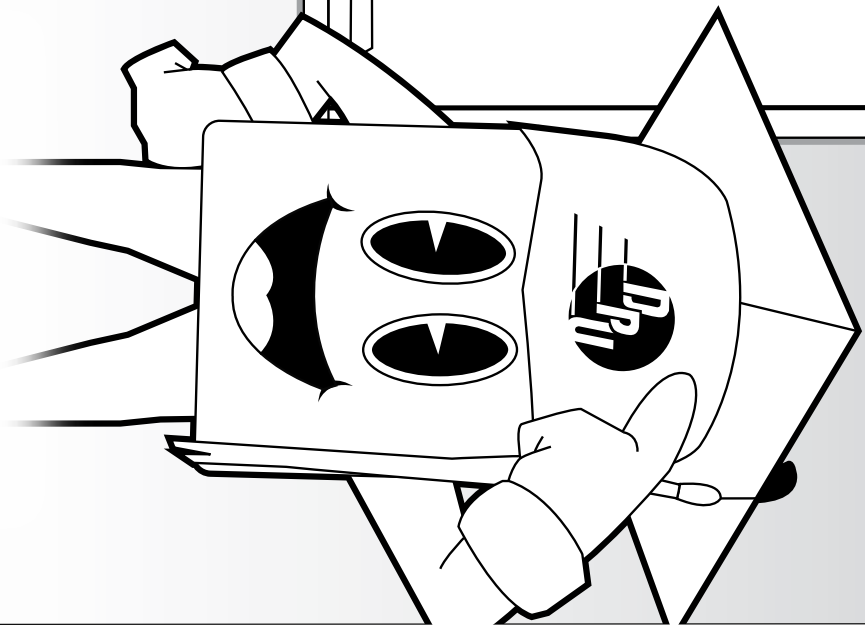

Isn't that easy to remember?

Tell your Mom and Dad to dispose of fats, oils and grease by freezing them and then throwing them into the trash can.

So Remember

NO FOGGS

NO CLOGGS

WASTEWATER SEEK & FIND

Read about wastewater and then see how many of the words you can find below in the puzzle. Words may be hidden backwards, forwards, or diagonally. For the puzzle key, see page 12.
