

Richmond Department of Public Utilities Presents:

W A T E R

Coloring Book & Activity Book

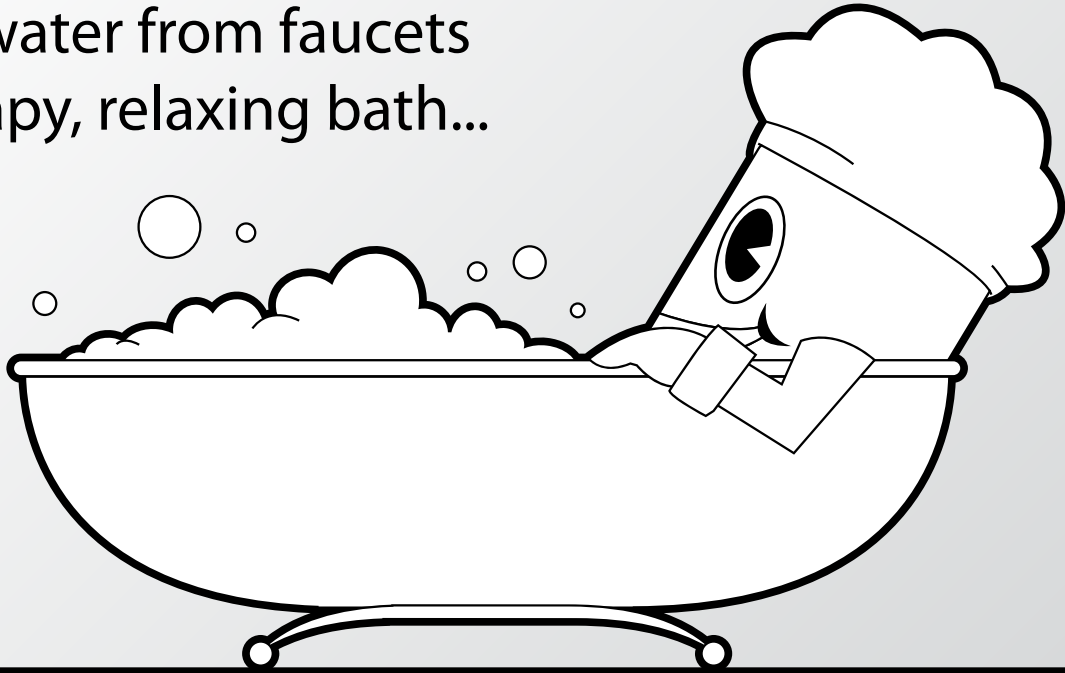

My name is Utility Buddy. I work at the City of Richmond Department of Public Utilities.

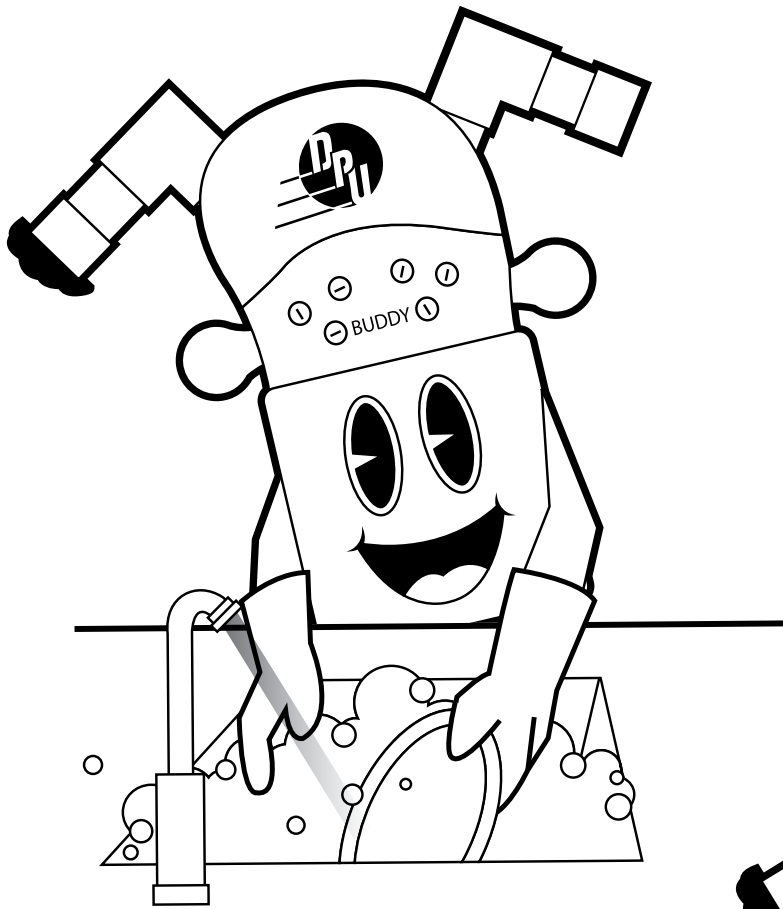

Mmmm...isn't it nice to have clean, fresh water each time you turn on the water faucet?

Warm water from faucets
for a soapy, relaxing bath...

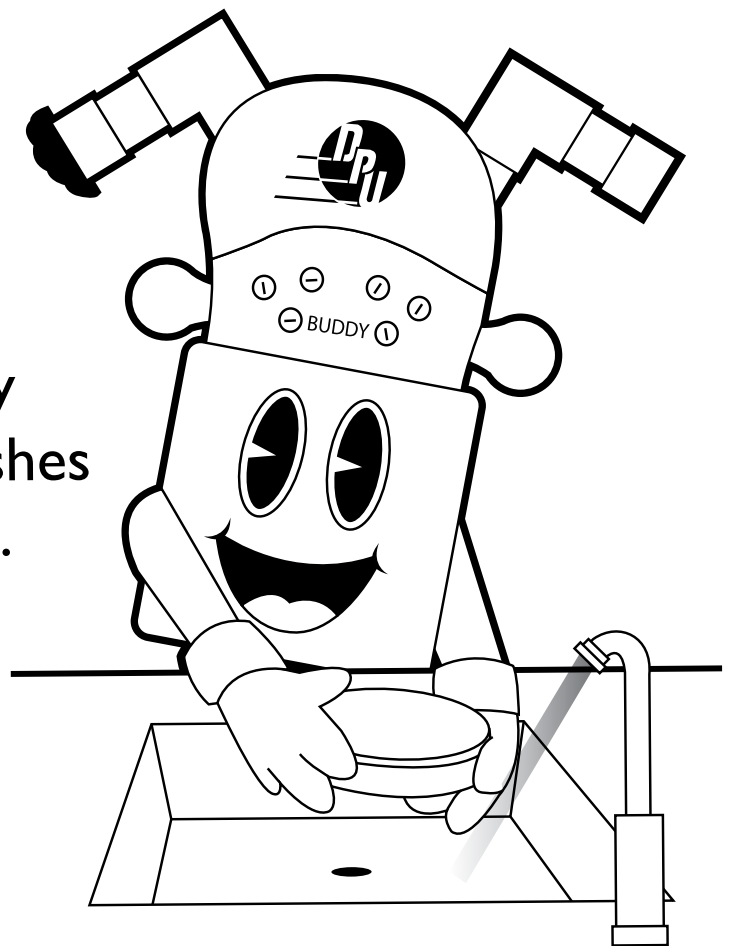

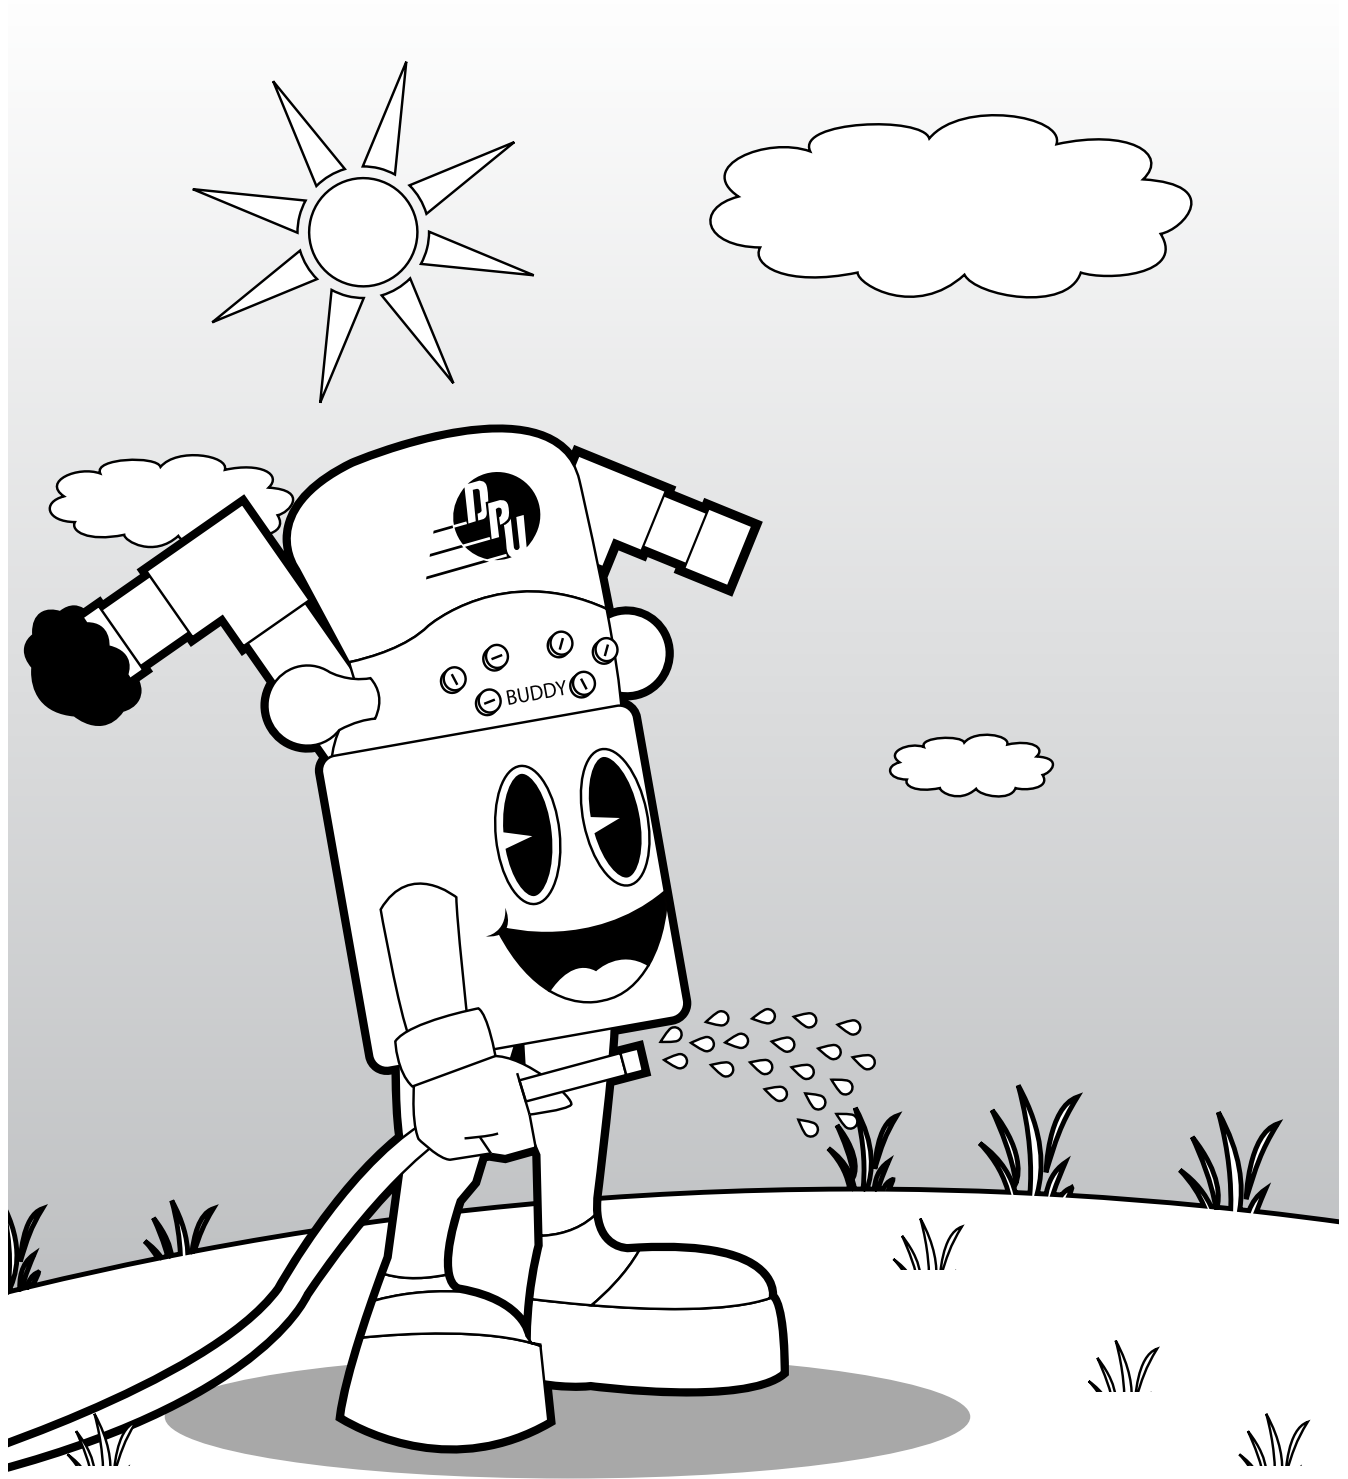

...and to wash your hands.

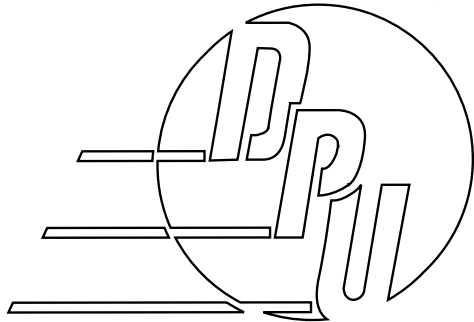

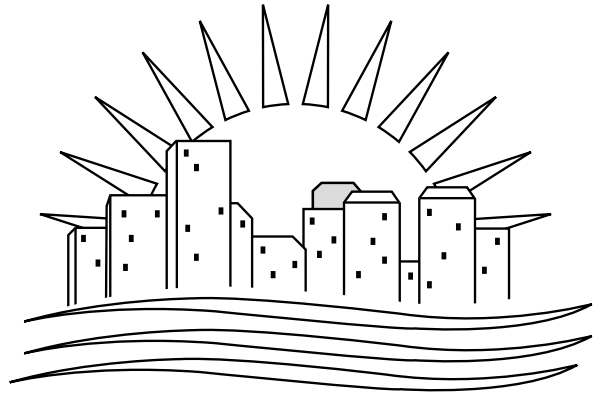

Your mommy or daddy
uses water to wash the dishes
and prepare your food.

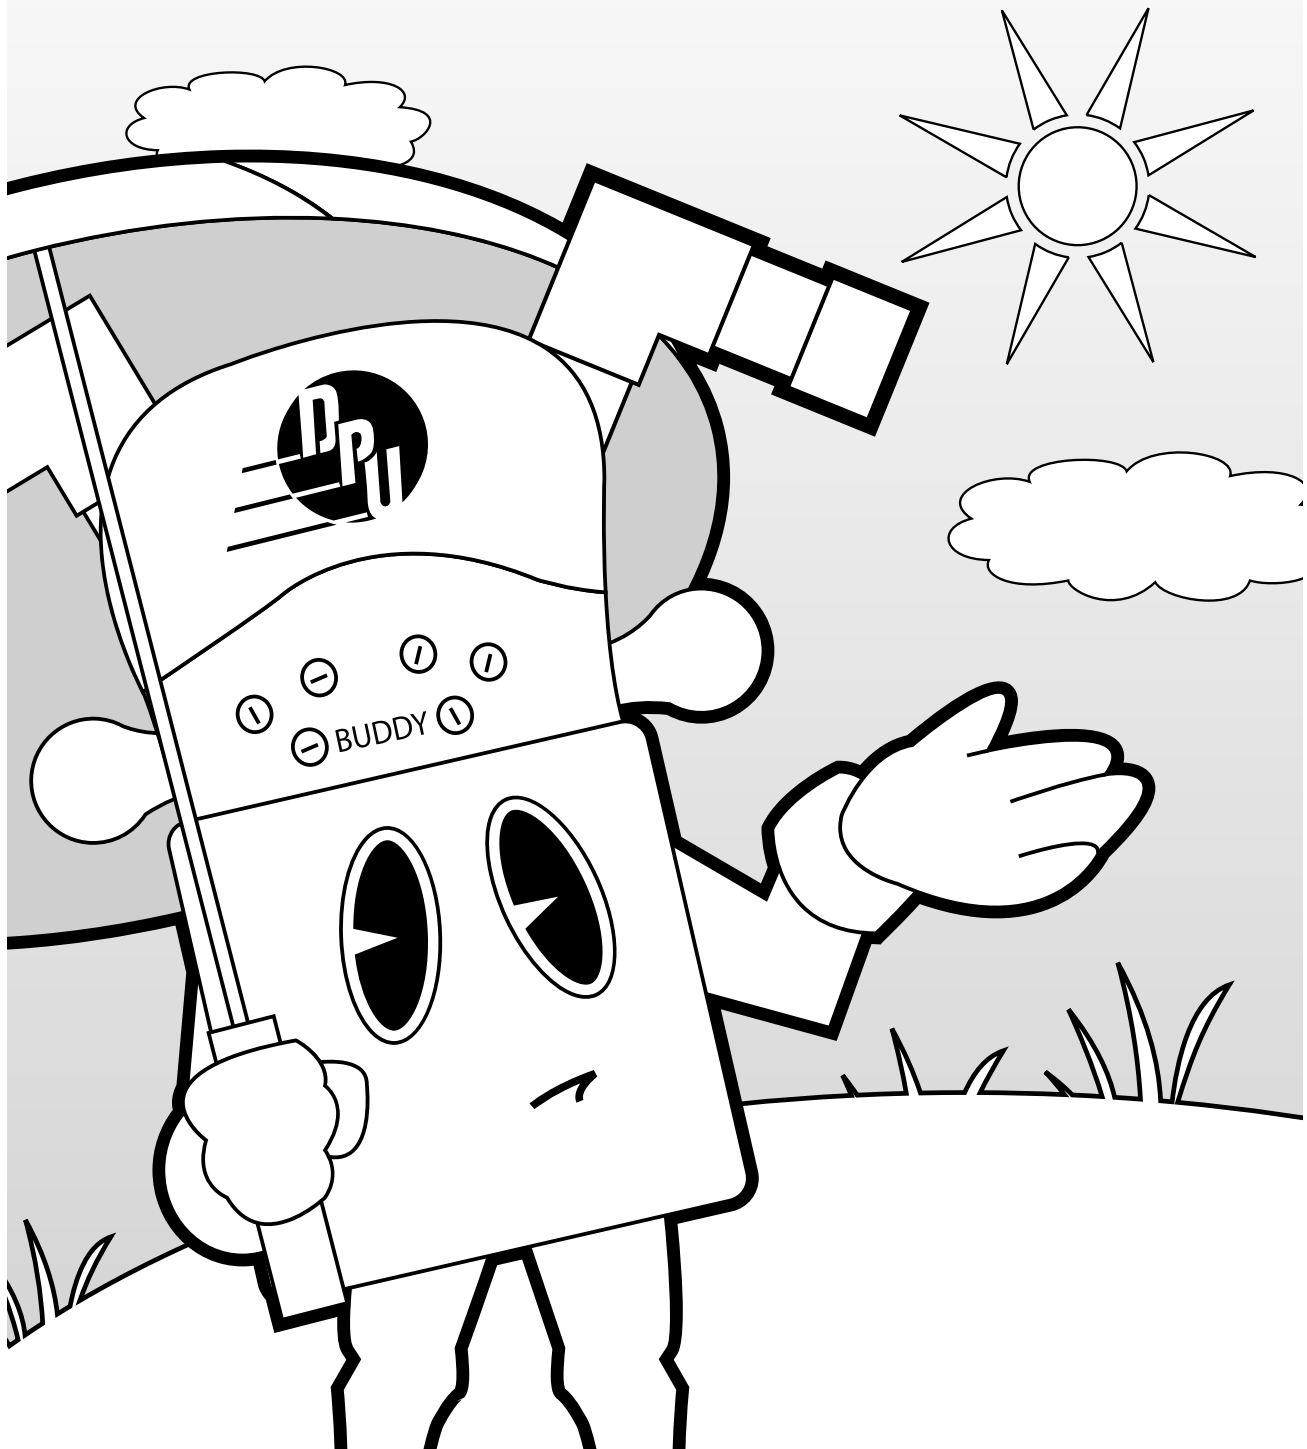

We give grass and trees a drink of water
with the garden hose.

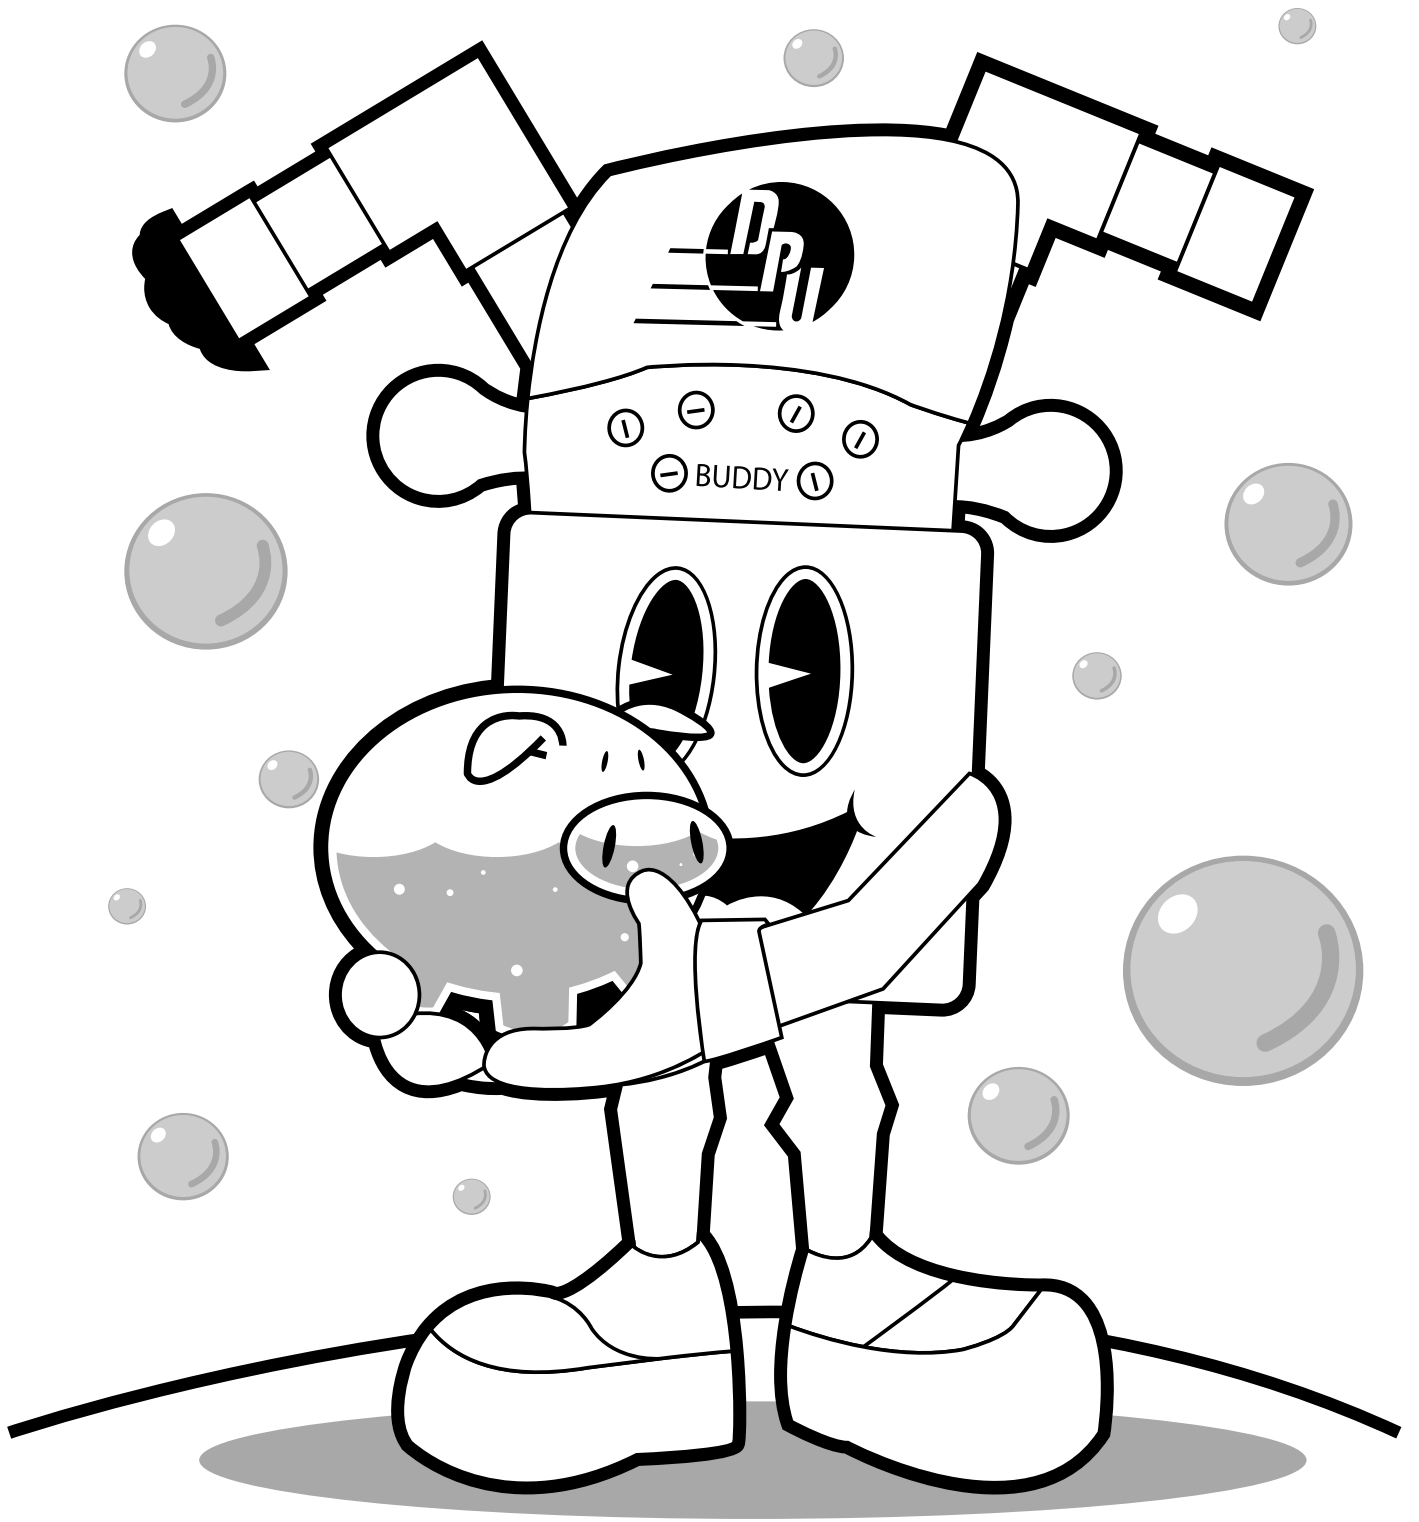

Where do we get water
to do all these things?

Yes, the James River!
The James River is our friend.

When it hasn't rained in a long time, sometimes the water in the river gets low. Then we have to be careful not to waste water

Can you think of ways to save water?
Make a list!

My Ways to Save Water
